

## Something for everyone

We love when young kids come in to read to the cats and dogs. They can also have fun making fun enrichment treats for them to hand out. Seeing the next generations want to give back and their big hearts, bring smiles to our days.

We love when our older citizens that can really walk the dogs or clean, just come and have their calm presence, and sit with our scared shut down dogs and cats. It helps them to trust people.

Come spend time  
with some great  
cats & dogs.

*Your presence makes  
a difference in their  
lives.*
